Agency for TRADE MARKS, DESIGN PATENTS, Scientific American Malaria

Malaria and chills and fever are due to the inhalation of watery vapors and gases arising from decaying vegetation. The humid Spring and Autumn months find it the worst. It infests both city and country. The victim is continually tired,

and worn out, has no energy, is subject to aches and pains in the back and limbs, and is perspiring one moment and cold the next. Joy's Vegetable Sarsaparilla is more effective in this trouble than all the potash Sarsaparillas put together, for the plain reason that it has stimulating properties and a perfect bowel regulating action not found in the others, and yet that are absolute necessidesin the cure of this ill. J. V.S. soon regulates it out of the system.
